Differences in coverage between Eclipse EDIS and Eclipse Testpod

Eclipse Testpod was introduced in 2005 and was designed to handle all known communication protocols at that time.
The new Eclipse EDIS hardware enables new possibilities and functions not available to the Eclipse Testpod due to hardware limitations. As the development of vehicle electronic systems and communication standards evolves so do Eclipse products.

The list below displays the difference between the diagnostic functionalities in Eclipse Testpod and Eclipse EDIS allowing professional workshops to service and repair more vehicles. Vehicles/systems in this list are not available to Eclipse Testpod users.

Customers requiring the latest coverage should contact Eclipse to discuss updating their Eclipse Testpod to an Eclipse EDIS.

Cars

Release	Brand	Model	System	Years
2013 R2	Nissan	Primera	SRS	2002-2007
	Nissan	Primera	SRS	2003-2006
2013 R3	Isuzu	D-Max	All	2004-2010
	Vauxhall	Ampera	All	2012 ->
	Ford	B-Max	All	2012 ->
	Mini	Paceman R61	All	2013 ->
	Toyota	Avensis	All	2013 ->

Release	Brand	Model	System	Years
2014 R1	Audi	A3 (2013-)	All except engine	2013 ->
